

Necronomicon
The Book of the Dead
By: The Old Ones

This book was created by The Book of Power and therefore contains words of power. The words in this book carry weight only over that which it may influence, but that which it may not, these words have no significant meaning, whatsoever. See The Book of the Four Protocols as reference to this. This book is dangerous and acts to undo the order of life, so because of the nature of that which is dead, the scope must remain limited and the access even further limited. For this reason, only The Book of Truth can unlock the pages here within. A word of warning for those worthy enough to possess this knowledge, that being worthy of that which is dead is being the least worthy of that which is life, and being the least worthy of that which is life is the worthiest of that which is dead. Use extreme caution for even the worthiest who speak these words incorrectly from this book, can produce unpredictable results.

Words of Power

Klaatu verata nikto

Returns stolen souls back to The Book of Life and seals this tome from further use until this seal is broken by The Book of Truth.

Klaatu barada nitko

Breaks the seal on this tome so the words of power can be used. The spoken words in this book remain invisible until the seal is removed. Requires The Book of Truth.

Klatoo verata Necta

Summons an army of darkness to steal souls from the Book of Life and in doing so alerts the Dragon Forge Master. This theft does have unforeseen consequences and sets into motion events that cannot be undone.

Klatoo barada necta

Returns the army of darkness to this tome and creates a corrupted soulstone. The power of this soulstone is relative to the number of souls stolen.

Klatoo verata nectar

Manifests the spirits of chaos and order to plague the living by initiating a constant state of war. Under the possession of these spirits, the living turn from understanding and for a time fall into darkness.

Klatoo barada nectar

Removes either chaos or order at random from the realm in which the words are spoken. Speaking the previous words of power after this set will initiate the final protocol on this realm in some significant way. See The Book of the Four Protocols for reference.

Klatoo verata necktie

Summons an ancient dragon from within the second plane of existence. The dragon will be in the guise of a court jester or a hero at random. If this hero or court jester is not summoned then the Dragon Forge Master will take his place and not be bound by the same guidelines and rules. Ancient dragons are neither influenced by man or lack understanding.

Klatoo barada necktie

Returns the ancient dragon to where they came, but only exactly 13 years, 13 days and 13 hours after these words are spoken, as far as man is concerned with time.

Klatoo verata nectphhhhhh

Unleashes the army of darkness onto the world, so that the dead may have dominion over the living, then seals this book and then unseals the Book of Demons as long as the ritual was completed correctly.

Klaatu valkyra nitko

Summons an angel or demon at random that will govern any faction war or battle. The angel requires the Dragon Soulforge in order to remain in any realm for prolonged periods of time, likewise, the demon is bound by The Book of Demons instead.

Klaatu baldyra nitko

Returns the angel or demon back to their eternal place of peace or torment. Requires the Book of Dragons or an ancient dragon.

This tome is part of a series of tomes written by the Old Ones. The volume series include:

- *The Book of Life
- *The Book of Truth
- *The Book of Virtue
- *The Book of Knowledge
